

Tyler SIS Student 360 Mobile

Tyler SIS/v10

Overview

Tyler SIS Student 360 Mobile is a mobile phone app version of the Tyler SIS Student 360 Parent Portal available on both iOS and Android. It can be downloaded from the Apple iTunes iOS App Store and the Google Play App Store.

The app is compatible with iPhones and iPads running iOS 7 or later and Android devices running Android 4.4 and later. While Tyler SIS Student 360 Mobile is compatible with larger devices, it contains a subset of the features available in the browser application. You can use the browser app on larger devices with Chrome on Android and Safari on iOS.

The Android and iOS versions are similar, but differences in hardware and platforms will result in slightly different appearances on some screens. Such differences are highlighted in this document.

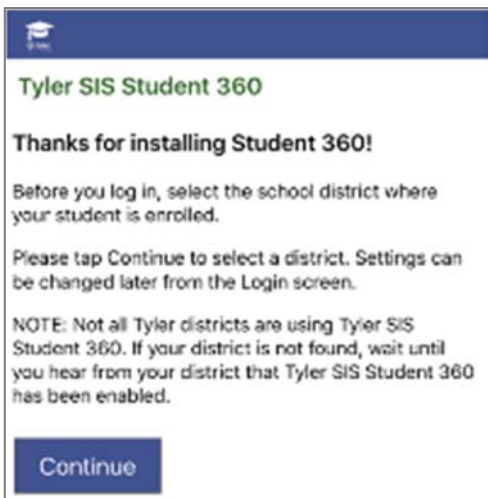

Installing Tyler SIS Mobile

Download Tyler SIS Student 360 Mobile from Apple iTunes or Google Play. The app is free.

- [iOS](#) (iPhone and iPad)

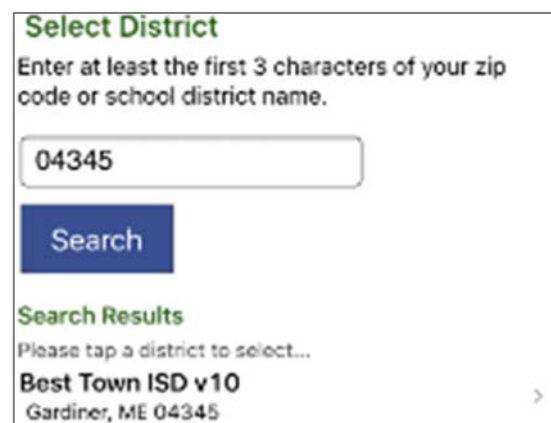

Logging in

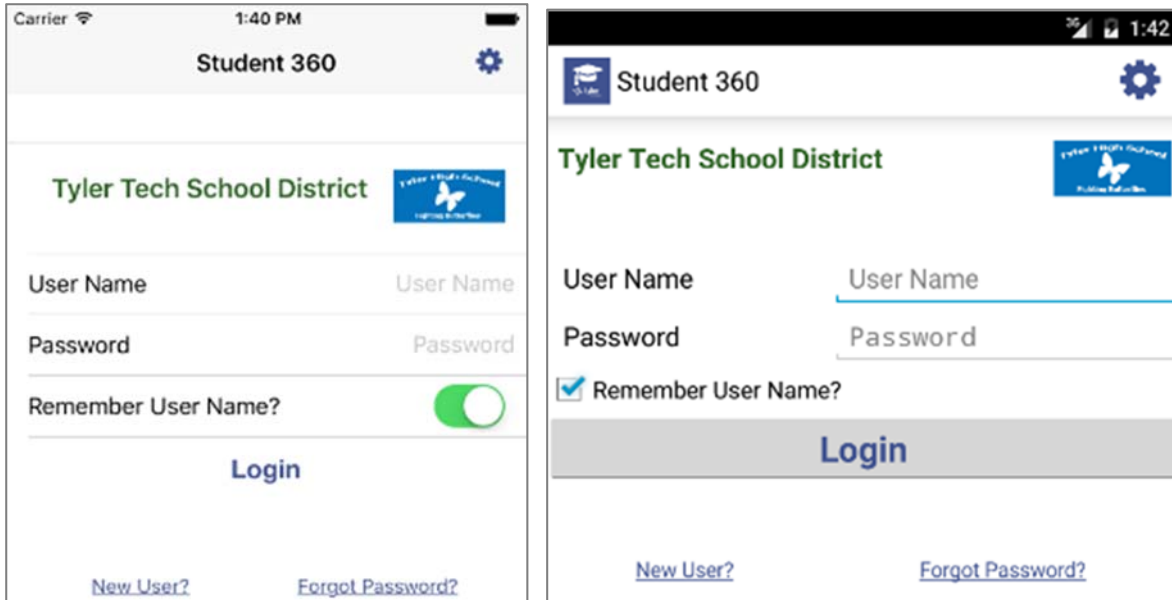

The first time you launch Student 360, you will be prompted to search for your district either by name or by ZIP code. If you select the wrong district or need to change districts, you will be able to do so later from the Settings screen.

Not all Tyler SIS districts are using Student 360. If you downloaded this document from a district where you have no students enrolled, it is possible that you will not be able to find your district.

Upon tapping Continue, enter at least the first three letters of the district's name or the first three digits of the district's ZIP code. Tap the Search button to search for districts. Tap the district where your student is enrolled to proceed to the login page.

Left: iOS, Right: Android

At the top of the login screen, the gear icon provides access to the settings screen. To log in, use the radio buttons (Android) or tabs (iOS) to select Staff, Parent, or Student login. Use the same User Name and Password that you use to log into the Tyler SIS Student 360 Parent Portal website. Use the checkbox (Android) or toggle switch (iOS) to save your User Name if you want, then tap Login.

Username and Password

All K-12 students will have an account to access the Tyler 360 portal. **The username for the Tyler 360 Portal is the student email address.** The student email address is the student’s network username followed by the student email domain (@ambridgearea.org). All student email addresses follow the same pattern. The first two characters are the intended graduation year. The next two characters are the first two letters of the student’s first name. The next string of characters is the student’s entire last name. The last two characters are the last two digits of the student ID number. See example below:

Name: Lori Heim
Graduation Year: 2017
Student ID: 171234
Username: 17loheim34
Student Email Address: 17loheim34@ambridgearea.org
Tyler 360 password: 171234

The password for the Tyler 360 portal will be the student ID number. The students will be prompted to change it when they log into the system. We recommend that they change it to their network login password. This is the password they use for almost all of the programs in the Ambridge Area School District. If we use the same student account information in the example above, my network password would be: Aa171234! This is just a suggestion. Students can choose any password that fits the Tyler 360 password requirements.

Navigating Tyler SIS Student 360 Mobile

Left: iOS, Right: Android

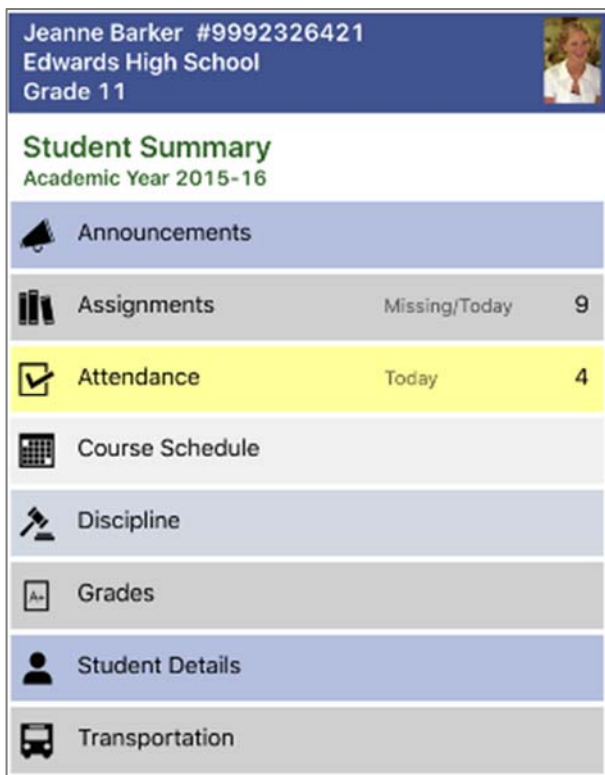

Within Tyler SIS Student 360, the Top Bar of the application will have several icons that help you navigate the app.

-  - return to the list of students (hidden if logged in as a student, or if only one student is found in the household)
-  - refresh the screen
-  - log out of Tyler SIS Student 360 Mobile.

Android devices have a built-in Back button, either at the bottom of the screen or as a hardware button on the device. Tyler SIS uses this built-in Back functionality to return to the previous screen. On iOS, since there is no Back button, a standard left-pointing arrow at the top of the screen with a label will take you back to the previous page.

Student Summary

The Student Summary screen shows all of the areas available in Tyler SIS Student 360 for the selected student. Note that some of these items may not appear if they are not enabled by your district.

At the top of the screen, the student's name, number, primary enrollment school, and grade level are displayed on the left, while the student's photo appears on the right.

Some tiles may appear yellow to indicate that there is an alert to see. In this case, the Attendance tile is yellow to indicate that the student has absence data for the current day.

To see more detail about an area, tap the tile to be taken to that screen.
